

Field Engineer

Riverside Contracting is looking to hire a well-qualified Field Engineer. We are a highway construction company with job locations in Montana, Wyoming and Idaho.

Responsibilities include:

- Maintain accurate quantity and production records.
- Oversee or assist with all project Safety, Compliance and Quality programs and processes.
- Develop and implement contract administration plans including change orders, materials tracking.
- Project scheduling and coordination with Subcontractors and Materials Suppliers.
- Ability to relocate and travel as business needs arise.
- Assist in interpretation of drawings and specifications for field crews and craft supervision.
- Assisting in performing the work as necessary.
- Being present on the assigned project in various and remote locations.

Qualifications:

- Applicable degree in Engineering, Construction Management, Business Administration, or related field. OR, extensive applicable experience.
- Minimum of 3 years of heavy civil construction experience.
- Strong organizational and time management skills.
- Effective and clear communicator via face to face, phone, email, text, etc.
- Strong work ethic and willingness to do what it takes to get the job done (grab a shovel, get hands dirty, etc.).
- Attention to detail and ability to recognize and correct discrepancies.
- Team orientated, but able to work independently.
- Ability to work outdoors for extended periods of time in inclement weather.
- Equipment operating experience and Class A CDL preferred.

Riverside Contracting, Inc. offers equal employment opportunities to all individuals along with a very competitive wage rate and benefits package including: health insurance, pension and optional 401K retirement plan. Please complete our application online at www.riversidecontracting.com.
